Château Ollieux Romanis

Atal Sia, CorbièresBoutenac 2023

Atal Sia, meaning "So be it" in Occitan, is a pure and confident expression of Château Ollieux Romanis' vision for Boutenac. Rooted in Roman history and revived by the Bories family in 1978, this certified organic estate has become a benchmark in Corbières, working with old vines, indigenous yeasts, minimal sulfites, and a hands-off approach in the cellar. Grown on the sun-warmed slopes of the Pinada Massif, this blend of Carignan, Mourvèdre, and Grenache Noir is vinified without oak, allowing the red sandstone soils, Mediterranean freshness, and old-vine depth to speak clearly.

Notes: Deep and expressive in the glass, with aromas of raspberry, red plum, violet, wild orchid, blackberry, black plum, garrigue herbs, and a touch of dried thyme. On the palate, it is fresh, vivid, and beautifully structured, showing layers of red cherry, strawberry, rhubarb, dark berries, black olive, and subtle spice. Fine tannins, mineral tension, and saline freshness carry the wine into a long, graceful, and persistent finish.

Serving Temperature: 61°F
Decant Time: Recommended
Cellar Time: Now through 2035+

Pairing: Roast duck, herbed pork tenderloin, grilled lamb, game, mushroom tart, aged sheep's cheese

Region: AOP Corbières-Boutenac, Languedoc-Roussillon, France
Terroir: The vines grow on the sun-warmed slopes of the Pinada Massif at 100–150 meters, rooted in red sandstone and sandy-molasse soils that provide drainage, balance, mineral depth, and Mediterranean freshness.
Winemaker: Château Ollieux Romanis / Bories family

Varieties: 50% Carignan, 25% Mourvèdre, 25% Grenache Noir
Average Vine Age: Over 50 years
Farming: Certified organic since 2006
Harvest Method: By Hand
Fermentation: Carbonic maceration, with varieties blended at picking
Aging: 12 months in temperature-controlled stainless-steel tanks, followed by at least 9 months in bottle
